No records found for this company on Compliance Database

→ No score impact

Specific Comments

- No records found in third party risk and compliance database.
- There is a lack of information and supporting documents on implementation measures regarding ethics issues.
- Although the company has formalized policies regarding sustainable procurement issues, there is a lack of information on associated measures.
- Since the last assessment the overall score has increased thanks to the provision of new sustainability certifications.
- Despite the company implementing measures regarding labor & human rights issues, policies are not formalized or are only basic.
